

## Training Formats: Writing Joint Research Grant Proposals in a Team

### Online self-learning course (asynchronous)

Content: Introduction to the principles of writing a successful research grant proposal (building a shared knowledge base for the joint writing process in the international team).

Duration: 4 months access

Completion time: 20 hours on average

The course consists of 14 lessons.

At the end of each lesson the acquired knowledge can be assessed by a self-test.

We provide individual offers for group contingents.

### 90 min online lecture (synchronous)

Introduction to jointly writing grant proposals for collaborative research projects, Q&A session.

Content: Typical proposal sections, specific requirements for co-authoring, dos & don'ts.

### Webinars and online workshops (synchronous) \*Day à 4.5-5 hours (plus breaks)

with different durations and correspondingly different levels of detail:

#### 1-day webinar\*

Content: Typical proposal sections, specific requirements for co-authoring, dos & don'ts, funding organisations. With interactive exercises.

#### 2-day webinar\*

Content: Typical proposal sections, specific requirements for co-authoring, dos & don'ts, funding organisations, proposal language. With interactive exercises and individual work.

#### 3-day online workshop\*

Content: Typical proposal sections, specific requirements for co-authoring, dos & don'ts, funding organisations, proposal language, CVs. With interactive exercises, individual and group work.

### Blended Learning

A two-phase combination of

1. the asynchronous online self-study course (= building a knowledge base) and
2. a synchronous training format (teams develop their own grant proposal).

### Team consulting

Personalised support in all phases of the grant writing process.

Bookable by the hour (à 45 min) or as a package of several hours.

**If required, proWiss can adapt the training programme to a specific target group.**
